

# Terms and Conditions

This project was created for academic purposes, its resale with or without modifications, as is the context and purpose of the work, is strictly prohibited. On many occasions I found the projects used in the YouTube video tutorials for sale.

Use this project template according to the terms and conditions described in this document.

## 1. Definitions

- a) **Work:** Refers to the complete RJ Code Modern UI - M1 project.
- b) **Source code:** Refers to the code written in the collection of classes, configuration files and other components to create the project.

## 2. Copyright

RJ Code Advance continues to own the intellectual property of the work. However, it is allowed to use the source code or a part of it, together with your own software projects, with or without modifications.

Entities looking to combine the code with another piece of software must understand the Copyright of the job. Be sure to note any copyright notices, as well as when and where they should be placed within the software, as was done in the "RJ Code Modern UI -M1" project with the use of some code from other authors.

## 3. Grant of license

Subject to the terms and conditions of this document, RJ Code Advance grants You a worldwide royalty-free license to exercise the rights in the work as follows:

- a) **You can use the source code samples in your own business applications** or non-commercial as part of a larger software project and being able to distribute it.
- b) You can apply bug fixes and other modifications. However, a work modified in such a way will continue to be considered the standard version and will be subject to the copyright.
- c) This work cannot be distributed or republished for sale or rent, as it is, that is, with the same context and objective (Project template). However you can do it if you meet point (A).

## 4. Restrictions

Use of the work is expressly subject to and limited by the following restrictions:

- a) You agree not to remove any of the copyright notices that may appear in the Source Code.
- b) You agree not to advertise or imply in any way that this work is your product.
- c) **You agree not to sell or rent any part of the work.** This does not prevent you from including the source code, or a portion of it, within a larger software distribution that is

distributed on a commercial or non-commercial basis. However, the Work by itself, as it is, with the same context and objective, cannot be sold or rented.

## **5. Termination.**

This License and the rights granted will automatically terminate if you breach any term in this document.
